# ABOUT US

Since 2006 Study Overseas is a global education organisation that help students achieve their dreams to study abroad. We guide you to choose the best course in the best university that suits your budget.

We have been operating from 16 years, creating a huge network of opportunities with offices in over 30 countries. At Study Overseas, we are dedicated to support you at every stage of your study abroad journey.

## Different cost effective options

Contrary to popular belief, foreign education is not always overboard with expenses. Some European countries do not even charge tuition fees for their course. They offer this facility because of Government funding of the education system. Scholarships are always available for eligible candidates. We shall help you prepare for the scholarship evaluation test. We maintain the latest resources of education funding opportunities in various countries of the world. You will find all necessary information at one place in our website. Our resources also include information on student swapping programs. Universities in different countries maintain ties with their Indian counterparts. Often students from different countries swap places. These are great opportunities for the eligible candidates.

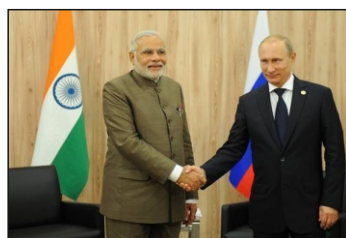

## Understanding the destination

Staying abroad is going to be a life-altering experience. Whenever you get to stay in a different culture and climate for a long time, it always has a changing effect in your life. You get to make new friends from across the world. You see new places, have new relationships, and learn new things. Besides, for studying further in certain disciplines, you have to choose the best university/college. Sometimes, the best one is in another country. We shall assist in the complete enrollment process at a suitable overseas educational center. Whether you seek admission in a Public University or a Private one, we shall help effectively.

## Comprehensive counseling assistance

Our services also include providing guidance for securing an education loan. We have good connections in the education loan sector. Our suggestions would assist students in procuring the necessary monetary help on reasonable conditions. We shall provide the grooming assistance for the visa interview. This is a very crucial procedure deciding your access to the education system overseas. You need to be confident, honest, and brilliant in the interview. Our counselors shall conduct mock interviews until you are fully confident. We shall ensure you to achieve your dream of pursuing the best courses overseas. We shall assist in selecting the most appropriate course between different similar options. If you want to find the best courses in your subject in different countries, consult our site for the latest information. When you contact us via phone or emails, we shall promptly clear your doubts. After you compare the courses, the living costs, and other parameters, you can decide the right program on your own. Following your decision, we shall help to materialize it into reality.

## India's relation with other countries

## FROM THE DESK of DIRECTOR

It is my great pleasure to present our consultancy Study Overseas, established in 2006. STUDY OVERSEAS has achieved a phenomenal growth and completed 16 years in the service of overseas education.

Studying abroad is gradually becoming a popular trend among Indian students and they need an admission consultant for choosing the suitable course in a right college but most of the students are unaware about the admission procedures and hence we guide them in college admission and comprehensive admission guidance to students helping them to choose college & universities. Quality counseling has converted many dreams into reality. We deal

in all sorts of admission in **UK, USA, RUSSIA, EUROPE, CHINA, UKRAINE, GEORGIA, CANADA, AUSTRALIA, NEW ZEALAND, SINGAPORE** and other parts of the world.

Study overseas guides to gain excellent education in best overseas universities. Keeping in view the changing requirement of profession and best university overseas. We continuously update the courses and their syllabus being taught in universities.

You will be happy to know the track record of achievement of our study overseas, Many of our students have proved their mettle and have established themselves successfully in different Indian hospitals.

I once again extend a warm welcome and a cordial invite to visit our consultancy offices. STUDY OVERSEAS will help you to drive your career with maximum advantage.

*With Best Wishes*

***Surender Singh Sahani***

## The International School of Medicine University

INTERNATIONAL UNIVERSITY OF KYRGYZSTAN (IUK) was formed in 1993 by a unique Decree of the President of the Kyrgyz Republic № 74 that gave the university the status of the international higher education institution. The International School of Medicine as a structural division of IUK was built in 2003. It is also known as International Higher School Of Medicine. The primary foundation for establishment of the school was a strategy of reforming Kyrgyz education system and increasing competitiveness of domestic universities, which resulted in the primary emphasis of ISM administration and faculty being sharpened on the creation of a modern growing educational institution that can provide high quality training and has competing potentials in the medical education market. Currently, the International School of Medicine is a modern university with extensive infrastructure, and experienced faculty affiliates that are nationwide and some of them worldwide recognized specialists in different areas of medicine, acknowledged health organizations and agencies. Fifteen years ago the first 13 students were entered, whereas at present about 7000 students study at the University. Most of our students are residents of foreign countries: India, Pakistan, South Korea, the USA, Great Britain, Russia, Ukraine, Afghanistan, Japan, Nepal, Bangladesh, Turkey, and Syria. That is why the language of guidance is English. As specified in rector's welcome note: "strong intellectual potential, close cooperation with leading medical college, the use of advanced technologies, and personalized approach to each student, all these ensure high quality of practice and future professional successes of our graduates." Although the key to the academic success of any staff members
